Transportation **23**: 415–416, 1996

CONTENTS Volume 23 1996

Volume 23 No. 1

Special Issue on Induced Traffic
Guest Editor: Denvil Coombe

DENVIL COOMBE: Guest editorial 1–3
PETER J. HILLS: What is induced traffic? 5–16
PETER BONSALL: Can induced traffic be measured by surveys? 17–34
PHIL B. GOODWIN: Empirical evidence on induced traffic: A review and synthesis 35–54
PETER HEADICAR: The local development effects of major new roads: M40 case study 55–69
ERIC KROES, ANDREW DALY, HUGH GUNN & TOON VAN DER HOORN: The opening of the Amsterdam Ring Road: A case study on short-term effects of removing a bottleneck 71–82
DENVIL COOMBE: Induced traffic: What do transportation models tell us? 83–101
PETER J. MACKIE: Induced traffic and economic appraisal 103–119
Contributors to this issue 121–122

Volume 23 No. 2

Articles

JAMES ODECK: Ranking of regional road investment in Norway: Does socioeconomic analysis matter? 123–140
ALAN C. McKINNON & ALLAN WOODBURN: Logistical restructuring and road freight traffic growth: An empirical assessment 141–161
SUSAN L. HANDY & PATRICIA L. MOKHTARIAN: Forecasting telecommuting: An exploration of methodologies and research needs 163–190
M. HADI BAAJ, SULEIMAN ASHUR & ATMAM ANWAR: Transportation analysis for sludge landfill site selection: A case study demonstration 191–209
Contributors to this issue 211–212

Volume 23 No. 3

Special Issue: A New Generation of Travel Demand Models
Guest Editor: Martin Wachs

MARTIN WACHS: Guest Editorial 213–214
BRUCE D. SPEAR: New approaches to transportation forecasting models 215–240
MOSHE BEN-AKIVA, JOHN L. BOWMAN & DINESH GOPINATH: Travel demand model system for the information era 241–266
RYUICHI KITAMURA, ERIC I. PAS, CLARISSE V. LULA, T. KEITH LAWTON & PAUL E. BENSON: The sequenced activity mobility simulator (SAMS): an integrated approach to modeling transportation, land use and air quality 267–291
PETER R. STOPHER, DAVID T. HARTGEN & YUANJUN LI: SMART: simulation model for activities, resources and travel 293–312
HOWARD SLAVIN: An integrated, dynamic approach to travel demand forecasting 313–350
Contributors to this issue 351–352

Volume 23 No. 4

DEBBIE A. NIEMEIER, P.E. & JUNE G. MORITA: Duration of trip-making activities by men and women: A survival analysis 353–371
ROBERT CERVERO: Traditional neighborhoods and commuting in the San Francisco Bay Area 373–394
PAUL HOOPER, SIMON HUTCHESON & MICHAEL NYATHI: The challenge of liberalising domestic airline competition in a less developed country 395–408
Contributors to this issue 409–409
Instructions to Authors 411–414
Volume Contents / Author Index 415–417
